NEWS LETTER

POISONOUS TO DOGS

Grapes, raisins – all vine fruits
Alcoholic beverages
Chocolate
Yeast breads
Macadamia nuts
Pear pips
Kernels of plums
Peaches
Almonds
Cherry
Apricots
Apple core pips (contain cyanogenic glycosides resulting in cyanide poisoning)
Potato peelings and green looking potatoes
Rhubarb leaves
Mouldy/spoiled foods
Yeast dough
Coffee grounds, beans & tea (caffeine)
Hops (used in home brewing)
Tomato leaves & stems (green parts)
Broccoli (in large amounts)
Raisins and grapes
Cigarettes
Mistletoe
Tobacco
Cigars
Avocado
Salt
Baking Soda
Baking Powder
Nutmeg
Sugar-free foods (sugar-free foods containing Xylitol have been found to cause liver failure in some dogs)
or sugary foods
Beer/wine/alcohol of any kind (alcohol of any kind could lead to coma or even be fatal).
Green parts of tomatoes
Citrus oil extracts
Human vitamin supplements containing iron
Marijuana
Mushrooms (most types)
**Only 3 grams of Xylitol (found in sugar free chewing gum) is enough to kill a 65lb dog and QUICKLY!
Please pass this warning on to everyone you know who has dogs. It may just save a life.**

When one considers that a person may be stung by a bee or pricked by a rose thorn and may suffer only discomfort, yet another could suffer seriously and may even die!
